## Manufacturer Information

### Product information

This product has been subject to Insurers Product Governance process and has been reviewed and signed off by our POG committee as representing fair value to our mutual customers. As a minimum and depending on the customer type, our product review covers the following topics:

- Customer type and product suitability
- Product features and complexity
- Sale and distribution channels
- Cancellation reasons and quantitative information
- Claims declinatures
- Adherence to regulatory standards and laws.

Details of the target customer, cover and territories can be found on the IQUW website

<https://iquw.com/insurance>

Customers are predominantly large commercial customers alongside publicly traded companies.

Quarterly attestations will ensure that we track the customer type and amend our review to a more granular level if required, as per the Financial Conduct Authorities product governance rules and guidance (PROD Chapter 4).

## Distributor Information

<b>Acquisition Costs</b>	IQUW fully supports and encourages the principle of transparency and expects full disclosure by the intermediaries of all commissions and other compensations to their insureds, which is incorporated within the TOBA's from our broking counter parties.
<b>Insurer fees</b>	IQUW do not apply additional fees to our products.
<b>Brokerage</b>	IQUW have built in commission limits. IQUW adhere to the generally accepted levels of commission that are normal for the class.
<b>Fees</b>	Fees are directly considered between the broker and the customer.

## Fair Value

<b>Assessment Summary</b>	IQUW have put in place a process to ensure that all their products and the service provided are subjected to regular scrutiny to meet the needs of their customers. We consider benefits, cover and value in the chain. The information above details the activities that have been undertaken to ensure this product provides fair value to our customers.
<b>Vulnerable Customers</b>	IQUW has a strong Vulnerable Customer Policy in place to ensure that fair treatment of customers is ingrained in the company's culture. Customer vulnerability is currently monitored through our claims and complaints process to ensure that appropriate support is provided so that we can interact and deliver on our service effectively, to avoid consumer harm and provide good customer outcomes. Any management information that does come in we will analyse and support those in which have been identified.
